

Transport Innovation Talks

Highlights from the cutting edge of seamless mobility

Thursday, 3 May, 14:30-15:30

SESSION OUTLINE

Transport Innovation Talks are designed to provide new perspectives on transport and the Summit theme. Talks are based on clear and compelling storylines, are designed to inspire and are presented in a convivial atmosphere.

Themes:

- Visualising seamlessness
- Open source data: New ways of measuring seamlessness, new services enhancing seamlessness
- Innovative mobility services
- New ways of interacting with transport operators

Speakers:

- Martin Austwick, Lecturer, Centre for Advanced Spatial Analysis, University College London Bartlett Faculty of the Built Environment, UK on *Visualising Transport Data*
- Peter Hendy, Commissioner, Transport for London, UK on *Seamless transport for the London Olympics*
- Peter Miller, CEO, ITO World Ltd, UK on *Open data, new mapping tools and transport implications*
- Jaehak Oh, Vice-President, Korea Transport Institute, Korea on *Linking real-time public transport information and station design*
- Carlo Ratti Director, MIT SENSEable City Laboratory, USA on *Urban future: wired*
